

Music

During Term 4, the Prep students will be focussing on finalising their class performance for the CSPS musical - Aladdin. They will continue to learn to sing in parts and follow simple choreography, along with a particular focus on stage craft.

The students will also experiment with sounds by creating 'Soundscapes' for a favourite book by considering the different sounds that would accentuate their story, using instruments, their voices and objects in the music room. Students will learn to use instruments appropriately and safely and this term, will extend their instrument repertoire to ukuleles, percussion, and keyboards.

Students will continue to discuss the elements of rhythm and pitch, as they sing, play, improvise and move to music. They will learn to feel the beat, sing with pitch accuracy and to discriminate between sound and silence.

Students will talk about their experiences of music, identifying what they enjoy and why. They will listen and respond to different genres of music and comment on how that music makes them feel.
