Preparing for the future:

Digital Learning at Clifton Springs Primary School

Our school uses online services to support a high quality and innovative learning environment. The following information sheet provides plain language explanations about student participation, privacy compliance and copyright components of digital learning at our school.

What type of online services are used at our school?

Compass and other online learning tools are used at Clifton Springs Primary School to support and enhance the educational experiences of all students. Access to a vast array of tools online allows students to develop contemporary skills that are needed for their future in a world where being connected, able to communicate and collaborate, and be creative are integral. It is through the use of online tools that staff at Clifton Springs Primary School give students the opportunity to explore learning beyond the walls of the classroom, and in doing so, also teach them important skills about how to be critical consumers and ethical users of the information and websites that they encounter.

Compass is one named service for which students that are enrolled at Clifton Springs Primary School will automatically have an account created for them. Students will at times also use other online services where they will be asked to create an account or their classroom teacher would have generated an account for them. An updated list of these services can be found at <http://www.cliftonspringsps.vic.edu.au/byod.html>

What are the benefits of using online services and how do we use them?

As part of the learning program at Clifton Springs, Compass provides a learning portal, used by many Victorian schools, that is accessible by all parents and teachers. It serves as a method of providing assessment, reporting and ongoing learning information of all students. Compass also includes functionality that allows students and teachers to collaborate and share ideas that aim to increase the depth of student learning. Additionally, it will also be used by the school to track student wellbeing in a highly confidential and secure manner, for example attendance, health and safety incident reporting and learning behaviours related to the school values.

The Compass domain will be administered by a number of school staff and interactions and spaces online will also be monitored by the classroom teacher.

What personal information is required to create and use an online account to access the online services?

Only limited personal information is used for most online learning i.e. name and class.

Compass requires a login to be created for families. For this purpose, the school will use the students' Cases21 identification (eg JEN002) to create a username and in the future email addresses.

Compass will then use this email provided to generate an account, using the email account as a user name. Parents/carers will then use the account to login to the Compass platform.

More information on our online services here:

<http://www.cliftonspringsps.vic.edu.au/digital-learning.html>

Some other personal information is utilised by some services for the purpose of monitoring students learning and wellbeing, for example:

- Parents contact details
- Medical alert information
- Timetable information
- Attendance data

All of this information is accessible within the DET Cases21 system and is provided to the school upon enrolment. No other personal information is added to online tools other than the uploading of students' work, feedback and assessment from teachers, and health and safety incident reporting records.

How do we protect personal and other information?

Victorian privacy laws require schools to handle personal information in accordance with the appropriate principles such as the 10 Information Privacy Principles. In most cases personal information is stored in servers located in Australia, in limited cases such as Google, servers are located internationally, governed by their own privacy policy that respects data security. The school has monitoring capabilities for Google to ensure appropriate and safe use.

The audience is restricted to users of the Compass system. It is further restricted within student profiles so that only the parent or carer of each child has access to their child's information.

Compliance assessments, appropriate contractual documents and monitoring ensure all data is securely and appropriately handled. For more information or copies of Privacy Impact Assessments please contact the College.

What content and materials (i.e. photos, stories, videos) your child will be able to share through the online services?

Students own the copyright in any work they create if it is their original work. Please note that students may only use the work of another student in the course of collaborative or group work, or with the permission of the other student. The student may create a variety of work such as:

- art work or photographs
- video or digital story
- school projects and assessment materials
- podcasts and other streaming outputs
- written work, such as assignments, essays or poetry

Where this work contains identifiable information about themselves or others, the school will guide students on ethical considerations such as respect and consent.

The reproduction of student work is often used to demonstrate excellence and celebrate the efforts of students with the wider community. The school asks students for permission to reproduce and publish student work in this way.

What school policies and support apply to these services?

The Clifton Springs Primary School Digital Learning Community Agreement will be used to inform the school community on acceptable behaviours. Our school policies are available from our school website. Students will be supported to develop Cyber Safe practices online. In some instances, inappropriate use of online tools may require personal information such as messages or comments in the system to be discussed with a child and their family.

What if I choose to opt-out of online tools for my child?

Please consider the benefit of these online tools as important ways that we can leverage enhanced learning experiences for students, and balance this with the minimal risks which are mitigated by: limiting information to that needed, supporting safe use and data security compliance. We are happy to discuss any concerns you may have - please contact the Principal or Assistant Principal's at the school on 5251 3581.

To discuss the use of online tools please contact the school to help us understand any parental concerns related to your child's learning opportunities using online tools.

****Please sign this permission form for your child and return it to school.***

You will then be provided with Compass login information and a 'How To' Handbook.

Please keep your login details secure so only you will be able to view your own child/ren information.

Parents who are not living under the same roof as the child (where no Court Order limits contact,) can receive their own login as an Alternative Family by contacting the school on 5251 3581

I give consent for the Clifton springs Primary School to provide me with an account for Compass to allow me to,

- view attendance or submit my child's absences,
- view reports and learning tasks,
- give permission and make payment for my child's events.
- view the school newsletter and receive alerts, reminders or other school-based information.

Privacy Collection Notice

Information for students, parents and carers

The Department of Education and Training (the Department) values your privacy and is committed to protecting the personal and health information that schools collect.

All school staff must comply with Victorian privacy law and the [Schools' Privacy Policy](#). This notice explains how the Department, including Victorian government schools (schools), handles personal and health information. On occasion, specific consent will be sought for the collection and use of information, for example, for a student to receive a health service. Our schools are also required by legislation, such as the *Education and Training Reform Act 2006*, to collect some of this information.

Throughout this notice, 'staff' includes principals, teachers, student support service officers, youth workers, social workers, nurses and any other allied health practitioners, and all other employees, contractors, volunteers and service providers of the school and the Department.

On enrolment, and during the ordinary course of a student's attendance at a school, schools will collect information about students and their families for the following purposes:

- educating students
- supporting students' social and emotional wellbeing, and health
- fulfilling legal obligations, including duty of care, anti-discrimination law and occupational health and safety law
- communicating and engaging with parents
- student administration
- school management
- supporting policy in relation to student education and wellbeing.

If this information is not collected, schools may be unable to provide optimal education or support to students or fulfil legal obligations.

For example, our schools rely on parents to provide **health information** about any medical condition or disability that their child has, medication their child may take while at school, any known allergies and contact details of their child's doctor. If parents do not provide all relevant health information, this may put their child's health at risk.

Our schools also require current, relevant information about all **parents and carers** so that schools can take account of safety concerns that affect their children. Parents should provide schools with copies of all current parenting plans and court orders about or that affect their children and provide updated copies when they change.

When parents enrol their child in primary school, they will be asked to provide personal and health information in several ways, including via the Enrolment Form, the [School Entrance Health Questionnaire](#) (SEHQ) and the [Early Childhood Intervention Service](#) (ECIS) Transition Form.

The **Enrolment Form** is used to collect information that is essential for the purposes listed above, and requests information such as:

- **Emergency contacts** – Individuals parents nominate for a school to contact during an emergency. Parents should ensure that their nominated emergency contact agrees to their contact details being provided to the school and that they understand their details may be disclosed by the Department if lawful, e.g. in the case of emergency communications relating to bush fires or floods.
- **Student background information** – Information about country of birth, Aboriginal or Torres Strait Islander origin, language spoken at home and parent occupation. This information enables the Department to allocate appropriate resources to schools. The Department also uses this information to plan for future educational needs in Victoria and shares some information with the Commonwealth government to monitor, plan and allocate resources.
- **Immunisation status** – This assists schools to manage health risks and legal obligations. The Department may also provide this information to the Department of Health and Department of Families, Fairness and Housing to assess immunisation rates in Victoria, but not in a way which identifies students.
- **Visa status** – This is required to process a student's enrolment.

All schools may use departmental systems and online tools such as apps and other software to effectively collect and manage information about students and families for the purposes listed above.

When schools use these online tools, they take steps to ensure that student information is secure. If parents or carers have any concerns about the use of these online tools, please contact the school.

School staff will only share student and family information with other school staff who need to know to enable them to educate or support the student as described above. Information will only be shared outside the school

(and outside the Department) as required or authorised by law, including where sharing is required to meet duty of care, anti-discrimination, occupational health and safety, and child wellbeing and safety obligations. The information collected will not be disclosed beyond the school and Department without parent consent unless such disclosure is lawful.

When a student transfers to another school (including Catholic, independent and interstate), personal and/or health information about that student may be transferred to the next school. Transferring this information is in the best interests of the student and assists the next school to provide the best possible education and support to the student. For further detail about how and what level of information is provided to the next school, refer to the: [Enrolment: Student transfers between schools](#)

Schools only provide school reports and ordinary school communications to students, parents, carers or others who have a legal right to that information. Requests for access to other student information or by others must be made by lodging a [Freedom of Information](#) (FOI) application.

To update student or family information, parents should contact their school.

For more information about how schools and the Department collect and manage personal and health information, or how to access personal and health information held by a school about you or your child, refer to the: [Schools' Privacy Policy](#)
