

# Integrated Inquiry

The school year commences with a whole-school unit of work around learning to learn which we have affectionately titled 'Spring into Springs'. All year levels are involved in this unit, which supports every child as they step-up and into their new learning environment.

This unit sets the standard for all other learning programs (Reading, Writing, Maths, Inquiry etc.) and ensures every student is well-prepared and supported for a successful academic year.

In Prep, this unit sets the standard for developing new skills and understandings built around the Victorian Curriculum;

- Personal and Social Learning: recognition of expression of emotions, collaboration, relationships and diversity.
- Health and Physical education: being healthy, safe and active.

Students will engage in a range of activities that will allow them to build their social understanding. They will participate in DIP (Developmental Inquiry Play), The Life Education Van, Buddies and many whole cohort activities.
