

Year 3/4 Inquiry

The 3/4 year commences with an Integrated Inquiry unit of work that has a focus of 'Cultural Identity'. The unit, 'Australia - the land and its people', sets the standard for developing new skills and understandings built around the Victorian Curriculum areas of Geographical knowledge, History and Diversity in order to appreciate the significance of Australian places and environments.

Students will aim to identify the similarities and differences between places within their own community, learn how to interpret maps and geographical data as well recognise the many places where both Aboriginal and Torres Strait Islanders continue to play important roles within our Australian community.

An emphasis on developing inclusive and collaborative skills and awareness as well as a growth mindset will also be explored and provide a strong platform for students to excel socially and academically throughout the year.

This unit of Inquiry ensures every student is well prepared and supported to build positive relationships with peers, teachers and other community members.
