

Visual Arts

During Term Two, the students in Years 3 and 4 will be studying colour. They will revise their knowledge of colour and they will be shown how to mix primary, secondary and tertiary colours. They will name the colours that they make and place them correctly on a colour wheel. They will use this learning to guide them with the use of the iPad app 'Brushes Redux'. After studying the artwork of Vincent Van Gogh, they will use 'Brushes Redux' to create a picture about a natural disaster incorporating painting techniques similar to those of Van Gogh.

The theme for art lessons will complement the Integrated Inquiry work in classroom lessons.

Painting and printing will be a focus of lessons this term and the students will also be asked to explore the use of a variety of other materials to create their artwork.
